Experience

Frontend Engineer (JS/React)

08/2017 - present

Akelius GmbH <https://www.akelius.de>

Berlin, Germany

Upgrades and manages residential properties

- ✓ Desinged and implemented Single Page Application as a step in process of replacing current legacy solution. The new solution support Constructors in faster managing processes of upgrading residences.
- ✓ Onboarding and mentoring new Frontend teammates

Full Stack Developer (JS/RoR)

08/2016 - 07/2017

sofatutor GmbH <http://www.sofatutor.com>

Berlin, Germany

Online Learning Platform in Germany

- ✓ Built new workflow for Admin Panel for supporting Video Production team. That involved developing full CRUD interface in Rails application based on a state machine. Task also required reimplementing roles on authorisation layer.
- ✓ Built new Instant Search service for the platform. This allowed user to better target precise learning video materials.

Full Stack Developer (JS/RoR)

03/2015 - 07/2016

Sharepop (hi! share that)

Berlin, Germany

<https://www.hisharethat.com/>

Online Marketing Platform

- ✓ Successfully built and kickstart greenfield product with one teammate.
- ✓ Designed and lead Frontend architecture and UX.
- ✓ After product stabilisation I developed Full Stack features in RoR

Senior Front End Developer

10/2013 - 02/2015

Applift (HitFox Group) <https://www.applift.com>
